

**JEFFERSON COUNTY COMMISSION ENVIRONMENTAL SERVICES DEPARTMENT  
SEWER CONFLICT EVALUATION AND RELOCATION FOR THE PRATT HIGHWAY BRIDGE  
REPLACEMENT IN THE CITY OF BIRMINGHAM DESIGN PUBLIC NOTICE**

The Jefferson County Environmental Services Department (ESD) will utilize the Qualifications-Based Selection (QBS) Process to select a professional services consultant to perform **ENGINEERING AND CONSTRUCTION MANAGEMENT SERVICES** relative to **CONFLICT EVALUATION and RELOCATION OF SEWER LINES AND ASSOCIATED STRUCTURES IN PROXIMITY TO THE PRATT HIGHWAY BRIDGE REPLACEMENT IN THE CITY OF BIRMINGHAM**. The consultant must have participated in the Consultant Eligibility Screening Process and must possess eligibility status in the "Small Scale Wastewater Facilities and Line Work – Design Engineering and Construction Management" project category. All consultants who possess eligibility status in the "Small Scale Wastewater Facilities and Line Work – Design Engineering and Construction Management" project category will be sent a Request for Qualifications Statement. Interested consultants should then submit their Qualifications Statement to the ESD in order to compete for the project.

**PROJECT DESCRIPTION:**

1. The project will consist of conflict evaluation of approximately 450 feet sanitary sewer line, including an approximately 150 feet creek crossing including ancillary facilities and any sanitary sewer facilities within or in proximity to the ALDOT Project No. STPBH-1602(519) Pratt Highway proposed bridge replacement and roadway improvement project construction limits, in the City of Birmingham.
2. The design and CM for relocation of those facilities determined to be in conflict with ALDOT Project No. STPBH-1602(519) Pratt Highway proposed bridge replacement and roadway improvement project construction limits, in the City of Birmingham.

**CONSULTANT'S SCOPE OF WORK:  
ENGINEERING**

The scope of work will include field surveys, engineering design, and the preparation of detailed plans, specifications, and contract documents for the replacement of approximately 450 feet sanitary sewer line, including approximately 150 feet creek crossing and ancillary facilities and any sanitary sewer facilities in conflict with the proposed Pratt Highway bridge replacement and roadway improvement project in the City of Birmingham. The consultant will prepare cost estimates, issue plans and specifications attend pre-bid conferences, and assist in the opening and evaluation of bids. The consultant will be responsible for identifying conflict with the proposed Pratt Highway Bridge Replacement project, developing engineering designs, and coordinating with the Pratt Highway Bridge Replacement project design team and ALDOT. The consultant will be responsible for preparing agreements with ALDOT and the County for reimbursement of design and construction cost. The consultant will be responsible for preparing accurate ALDOT required reimbursement documents for invoiced reimbursable work.

**CONSTRUCTION MANAGEMENT**

The Consultant will be responsible for full time on-site Construction Management Services for the sewer relocation construction project to determine if the work is proceeding in accordance with the contract documents.

Interested consultants who have not received eligibility status should submit a Consultant Eligibility Screening Application to the ESD no later than **5:00 p.m. on Friday, December 8, 2017** to become eligible to compete for this project.
